Customs no.:	63079098

Data sheet

IGNITE SKIFIZZ

The high-performance complete harness IGNITE SKIFIZZ is the new all-rounder for maintenance work and construction. Thanks to its innovative features, it offers users the opportunity to concentrate on the essentials at work, thereby increasing productivity many times over. The robust harness has durable plastic material eyelets (15 kg load capacity). Due to the individual adjustment, the central O-ring sits optimally on the body. The comfortable large-area back padding ensures an even distribution of the load and is breathable. The double-wrapped and firmly sewn terminations secure loose webbing and prevent slipping.

- High performance complete harness for maintenance work
- Durable plastic material eyelets
- Comfortable back padding
