

1 **EC - Type Examination Certificate**

2 Equipment intended for use in Potentially Explosive Atmospheres Directive 94/9/EC

3 Certificate Number: ExVeritas 15 ATEX 0073 X Issue: 1

4 Equipment: LED Flashlight 3765Z0

5 Manufacturer: Pelican Products Inc.

6 Address: 23215 Early Avenue, Torrance, CA 90505, USA.

7 This equipment and any acceptable variation thereto are specified in the schedule to this certificate and the documents therein referred to.

8 ExVeritas, Notified Body number 2585 in accordance with Article 9 of the Council Directive 94/9/EC of 23 March 1994, certifies that this equipment or protective system has been found to comply with the Essential Health and Safety Requirements relating to design and construction of equipment and protective systems for use in potentially explosive atmospheres given in Annex II to the Directive.

9 Compliance with the applicable Essential Health and Safety Requirements has been assured by compliance with the following Standards and section 16 of this report:

EN 60079-0:2012+A11:2013 EN 60079 26:2007  
EN 60079-11:2012 EN 60079-28:2007

10 If the sign "X" is placed after the certificate number, it indicates that the equipment is subject to special conditions for safe use specified in the schedule to this certificate.

11 This EC-Type Examination Certificate relates only to the design, construction, examination and tests of the specified equipment or protective system in accordance to the Directive 94/9/EC. Further requirements of the Directive apply to the manufacturing process and supply of this equipment or protective system. These are not covered by this certificate.

12 The marking of the equipment shall include the following:

 II 1G Ex ia op is IIC T3 Ga

**No. 8613**

## Schedule

### 13 Description of Equipment or Protective System

The type 3765Z0 flashlight is powered by 4 x AA Ni-MH secondary cells provided in the battery pack 3769. The flashlight light source consists of an LED array that is arranged to give differing light outputs. The light output is controlled via an electronic circuit, which is mounted within the flashlight body. The flashlight comprises of a main enclosure, a removable battery pack and lens assembly. There is a spring-actuated clip at the rear of the flashlight main enclosure and the charger contacts are provided outside of the enclosure at the front side.

The type 3765Z0 is provided with the standard charger 3770F that is intended to be used only in safe area. This charger includes a protective circuit for transients from the mainline.

#### 15 Conditions of Certification

##### 15.1 Special Conditions for Safe Use

- Only the battery pack 3769 can be used to power the LED flashlight 3765Z0. This battery pack is not allowed to be removed in hazardous areas.
- Only the charger 3770F can be used to charger the model 3765Z0. The use of another type of charger will invalidate the protection concept and this approval.

##### 15.2 Conditions for Use (Routine Tests) N/A

#### 16 Essential Health and Safety Requirements

Essential Health and Safety Requirements are addressed by the standards listed in section 9 and where required the report listed in section 14.1

The manufacturer shall inform the Notified Body of any modifications to the design of the product described by this schedule.
