**Fire test results according to EN 1568-1,-2,-3,-4: 2008
with foam concentrate ECOPOL 3 PREMIUM**

Dear Sir or Madam

Corresponding to your order we have carried out the fire tests in accordance with clauses 10 of the **parts 1, 2, 3 and 4 of the standard EN 1568:2008** with the foam concentrate **ECOPOL 3 PREMIUM** (3 % usage concentration) of the manufacturer **BIO-EX S.A.S.**

Herewith we confirm the reached test results as follows:

EN 1568-1:2008 - Medium expansion foam

The requirements of clause 10 are fulfilled with potable water *) and simulated sea water.

EN 1568-2:2008 - High expansion foam

The requirements of clause 10 are fulfilled with potable water *) and simulated sea water.

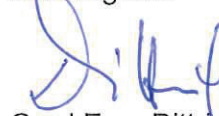

EN 1568-3:2008 – Low expansion foam for application to water-immiscible liquids
Extinguishing performance class and burnback resistance level using:

- potable water *): I A
- simulated sea water: I A

EN 1568-4:2008 – Low expansion foam for application to water-miscible liquids
Extinguishing performance class and burnback resistance level using:

- potable water *): I A (acetone)
- simulated sea water: I A (acetone)
- potable water *): I A (isopropanol)
- simulated sea water: I A (isopropanol)

Best regards

Grad Eng. Dittrich
(Laboratory Manager)

*) The foam solution was prepared using potable water according to the draft of the standard EN 1568:2017.
